

ETC CRAGG RAILCHARGER®

FEATURES & BENEFITS

- Tension clamp AC main terminals
- Convection cooled
- Operating temperature -40° C to 70° C
- Wall mounted or rack mounting kit
- Adjustable current limit
- Equalization features to extend battery life
- Temperature compensation to help increase battery life
- +/- 1% voltage regulation
- < 1 volt peak to peak output ripple
- Meets AAR/AREMA specifications
- Integrated voltage monitor measures voltage of entire battery bank and provides alarming when voltage is outside of control limits
- Two year warranty
